

Powerful Wireless RF Presentation Remote

With Honeywell's Card Presenter, there is no need to interrupt your presentation to advance frames. Features include:

- Works with most presentation software
- Simple forward, reverse, and blank screen control
- Universal USB and PS2 for Mac or PC
- Easy plug-and-play...no software to load
- Secure transmission...4 billion encrypted codes
- Unsurpassed 150 ft. RF omni-directional range
- Sharp integrated laser pointer
- Great battery life and 12-month warranty

The smallest, most powerful presentation tool available.

Power Presenter RF

www.powerremote.com

The Power Presenter RF Remote is a handy, compact presentation tool. It allows you to control slides in any presentation or slide show software and includes a built-in laser pointer.
